I, the undersigned, ..... student Id number.....

hereby declare that:

- I am aware that the Faculty of Information Engineering, Informatics and Statistics has adopted a web-based plagiarism detection service through a software called "Compilatio", which compares students' final theses with databases consisting of web pages, scientific publications and sites containing other final theses (e.g. [www.tesionline.it](http://www.tesionline.it)).
- I expressly authorise the uploading, archiving, transmission, reproduction and use of my final thesis, for an indefinite period of time, in the Compilatio database for the sole purpose of allowing its comparison for plagiarism detection with contents already present in the database as well as with contents entered subsequently; I am aware that the service offered by Compilatio will be of support both to my final thesis (Studium version) and to the teacher's supervision work although it does not replace in any way the assessment of the quality and originality of the thesis by the degree commission;

I acknowledge that:

- my personal data will be communicated to the provider of the Compilatio Service for access to the basic service and "Studium" in compliance with the provisions of Legislative Decree no. 196 of 30 June 2003 for the sole purpose of enabling the operation of the Services and to the exclusion of any other use;
- my own works uploaded on Compilatio will not be made visible to third parties;
- the provider of the Compilatio service, beyond any unauthorised access by hackers, has guaranteed to the Faculty a strict confidentiality of the information and materials provided by the users within its platform by adopting technological protection and security measures.

I also declare that I release the Faculty of Information Engineering, Informatics and Statistics and Sapienza University of Rome and its staff from any liability of any nature whatsoever that may arise from the claims and demands of third parties in relation to the content and/or organisation of my final thesis, including any infringement of intellectual property rights by third parties.
