

ENGLISH LANGUAGE PROFICIENCY ASSESSMENT

Admission to the Master's Degree Programs in **Physics** and **Astrophysics and Cosmology** requires verification of adequate English language proficiency. To this end, upon submitting the application for entry requirements verification (Section 3 of the call for applications), all candidates must fill out a dedicated Google Form (link: <https://forms.gle/MANw4xa5t89zGc3h9>).

Through the form, candidates may:

- Upload an English language certificate at level B2 or higher to request an exemption from the interview;
- Register for the English language proficiency assessment interview.

The list of recognized English language certifications is available for consultation at the following link:
