

## ENVIRONMENTAL AND SUSTAINABLE BUILDING ENGINEERING

FIRST YEAR	MON	TUE	WED	THU	FRI
CLASSROOM	23	23	23		23
9:30 - 10:30	Urban health and sustainable transport		Water and solid waste treatment plants 10:00		Water and solid waste treatment plants
10:30 - 11:30	Urban health and sustainable transport		Water and solid waste treatment plants		Water and solid waste treatment plants
11:30 - 12:30	Urban health and sustainable transport	Building design and H-BIM for architectural renovation	Water and solid waste treatment plants		Water and solid waste treatment plants
12:30 - 13:30	Urban health and sustainable transport	Building design and H-BIM for architectural renovation	Water and solid waste treatment plants		Water and solid waste treatment plants
CLASSROOM	23	23	23		23
14:00 - 15:00	Urban health and sustainable transport	Building design and H-BIM for architectural renovation	Environmental and urban planning in inner areas		Urban health and sustainable transport
15:00 - 16:00		Building design and H-BIM for architectural renovation	Environmental and urban planning in inner areas		Urban health and sustainable transport
16:00 - 17:00		Building design and H-BIM for architectural renovation	Environmental and urban planning in inner areas		Urban health and sustainable transport
17:00 - 18:00		Building design and H-BIM for architectural renovation	Environmental and urban planning in inner areas		
18:00 - 19:00		Building design and H-BIM for architectural renovation	Environmental and urban planning in inner areas		

SECOND YEAR	MON	TUE	WED	THU	FRI
CLASSROOM	25	27	25	25	25
9:30 - 10:30		Groundwater management	Advanced processes and technologies for water sustainability	Innovation materials for structural design 8:00	Environmental hydraulics
10:30 - 11:30	Foundation and earth retaining structures 10:00	Groundwater management	Advanced processes and technologies for water sustainability	Innovation materials for structural design	Environmental hydraulics
11:30 - 12:30	Foundation and earth retaining structures	Seismic design	Advanced processes and technologies for water sustainability	Innovation materials for structural design	Environmental hydraulics
12:30 - 13:30	Foundation and earth retaining structures 14:00	Seismic design	Advanced processes and technologies for water sustainability	Innovation materials for structural design	Environmental hydraulics
CLASSROOM	25 fino alle 17, poi 27	27	25 - 25	25	15 - 25
14:00 - 15:00	Groundwater management	Seismic design	Advanced processes and technologies for water sustainability	Innovation materials for structural design	Environmental hydraulics Advanced design for sustainable building components
15:00 - 16:00	Groundwater management	Seismic design	Foundation and earth retaining structures	Innovation materials for structural design	Advanced design for sustainable building components
16:00 - 17:00	Groundwater management	Seismic design	Foundation and earth retaining structures	Project financing	Advanced design for sustainable building components
17:00 - 18:00	Groundwater management	Seismic design	Foundation and earth retaining structures 18:30	Project financing	Advanced design for sustainable building components
18:00 - 19:00	Groundwater management	Seismic design		Project financing	Advanced design for sustainable building components
