## Prime Minister Justin Trudeau's keynote address at the CERAweek Global Energy and Environment Leadership Award Dinner in Houston, Texas

<https://www.youtube.com/watch?v=2gTQiVsYK-M>

### NUMBER 1: Fino a 6:30

Thank you, Dan, for that kind introduction and thank you all for being here. To the many [policymakers](#) and industry leaders here today, thank you. And of course to the organizers of CERAweek, thank you so much for this award. It truly is an honour for me personally, for Canada's superb Natural Resources Minister Jim Carr who's been here all week.

And for the Government of Canada and the people of Canada who elected us.

I'd like to begin with a little [family history](#), if I may. You may have heard that my father, Pierre Elliott Trudeau, was also Prime Minister of Canada back in the 70's and early 80's. In 1980, I was in my prime Star Wars years, at nine or so, so politics was not the first thing on my mind.

But that year, my dad's government [introduced](#) a policy called the NEP, the National Energy Program. It lasted until 1985 and it didn't work. It was a failure. It didn't mean to be, but it ended up being the wrong policy at the wrong time.

Now I'm not being [disloyal](#) when I say this. It's just a historical fact. The NEP introduced a level of state control over energy that hurt growth and jobs. It became hugely controversial. Consequently, when I began my run for the leadership in 2012, 30 years later, the Trudeau name was [mud](#) in Alberta, still.

A Trudeau, it was said, could not get elected dog-catcher in Alberta.

But here's the thing. I knew that there is no path to prosperity in Canada that does not include a [thriving](#), vibrant energy sector, both traditional and renewable. I knew that our resource industries

provide thousands of well-paying, middle-class jobs not just in Alberta but across Canada and around the world including, of course, here in Texas.

The Enbridge Spectrum merger, which creates one of the largest energy infrastructure companies on the continent, is only the most recent example of an extraordinarily [productive partnership](#). Last year alone, Texas trade with Canada was worth \$35.1 billion. Texas exports to Canada worth nearly \$20 billion. Imports from Canada, \$15 billion. That translates into thousands of good Texan jobs, my friends. By our reckoning, 460,000 jobs.

And the ties between our two countries are economic but also [strategic](#). This is the most successful economic relationship in the world, supporting millions of middle-class jobs on both sides of the Canada-U.S. border. Canada buys more from the United States than it does from any other country. We are the number one [customer](#) of two-thirds of U.S. states and in the top three for 48 different states. Nothing is more essential to the U.S. economy than access to a secure, reliable source of energy, and Canada is that source.

We have the third largest [oil reserves](#) in the world and provide more than 40 per cent of America's imported crude. And this extends well beyond oil. We supply you with more electricity and uranium than any other country, too.

My point is just this: all Canadians, cold weather dwellers that we are, get the [importance of energy](#). So, to emphasize that, immediately upon launching my leadership campaign, I went to Calgary, Alberta. I think quite a few people including quite a few of my own party thought I was crazy. But guess what? A little over four years later, with a number of strong Trudeau Liberals elected across Alberta, we're on our way to getting three new [pipeline](#) projects under way, which will help connect Canada's oil patch with energy markets around the world.

The first, Kinder Morgan's Trans-Mountain line, will run from Alberta across the Rockies to the Pacific. The second, Trans-Canada's Keystone XL pipeline, recently approved by President Trump, will ship Canadian crude to [refineries](#) here, in Texas.

And Enbridge's Line 3 replacement will also come south.

These ambitious projects will go a long way towards ensuring North American energy security for years to come. I make no bones about it. We're very proud of this. It's progress. It's important. As I said on the very first trip to the oil patch back in 2012, no country would find 173 billion barrels of oil in the ground and just leave them there.

The resource will be developed. Our job is to ensure that this is done responsibly, safely, and sustainably. Which brings me to the second piece, equally critical. While developing our resources for the economic benefit of Canadians, we must also look to the future.

## **NUMBER 2: da 7:06 a 10:03 + da 10:55 alla fine**

There will come a day, far off, but inevitable at some point, when traditional energy sources will no longer be needed. In preparing for that day, we have two critical responsibilities. One is to sustain the planet between now and then so we can pass it on to our children better than we found it. And the second is to get ahead of the curve on innovation.

And we in Canada are doing just that. Canadian companies are leaders in developing technologies such as carbon capture and storage, next-generation biofuels, advanced batteries for electric cars and cleaner oil sands extraction processes, among other advances. This creates good jobs and it also helps the planet.

Here's the crux of it. In Canada, as I said, we know all about preparing for winter and for the long cold nights. So, when we go camping—and we do love to camp, that particular stereotype is totally accurate - when we go camping we light our campfires before the sun goes down. And that doesn't mean we're anti-daylight.

So, it's exactly the same with energy. Innovating and pursuing renewables isn't somehow in competition with those traditional resources. It's common sense. It's wise preparation for the future. Our children and their children deserve no less.

All of which brings me full circle. We would not be on this path, not even close, had we as a government not insisted that environmental protection and resource development go hand-in-hand. Our immediate predecessors tried a different route for 10 years—to ignore the environment. It didn't work any more than the NEP of the 1980s worked. They couldn't move

forward on big [energy projects](#). Our predecessors failed because in the 21st century Canadians will not accept that we have to choose between a healthy planet and a strong economy. People want both, and they can have both. It takes compromise. It takes [hard work](#), but it is possible.

**The proof** that we have to [combine](#) and we can combine environment and economy is that little more than a year into our first term of government, we have made progress both on pipelines and on a national [carbon reduction](#) plan which finally puts a price on carbon pollution.

And this was worked out in cooperation with our provinces. It's a first step and more work needs [to be done](#), but it is a clear, new path for our country after years of false starts.

We are showing not only that it can be done but that it must be done, that this is the [way forward](#) that all of our citizens expect. And that's why, my friends, I am so very pleased and honoured to receive this award tonight. We are showing that [environmental](#) leadership and economic growth are inseparable, that they must go together. And today, because of this award, people around the world will take notice and hopefully join us on the path to a [brighter future](#).

*Merci beaucoup, tout le monde.*

CLINTON: Thank you. Thank you all. Thank you.

(APPLAUSE)

Thank you all very much. Thank you. Thank you. Thank you so much.

(APPLAUSE)

Very **rowdy** group. Thank you, my friends. Thank you. Thank you, thank you so very much for being here and I love you all, too.

Last night, I congratulated Donald Trump and offered to work with him **on behalf** of our country. I hope that he will be a successful president for all Americans. This is not the **outcome** we wanted or we worked so hard for and I'm sorry that we did not win this election for the values we share and the **vision we hold** for our country.

But I feel pride and gratitude for this wonderful campaign that we built together, this **vast, diverse, creative, unruly, energized campaign**. You represent the best of America and being your candidate has been one of the greatest honors of my life.

(APPLAUSE)

I know how disappointed you feel because I feel it too, and so do tens of millions of Americans who invested their hopes and dreams in this effort. This is painful and it will be for a long time, but I want you to remember this. Our campaign was never about one person or even one election, it was about the country we love and about building an America that's **hopeful, inclusive and big-hearted**. We have seen that our nation is more **deeply divided** than we thought. But I still believe in America and I always will. And if you do, then we must accept this result and then **look to** the future. Donald Trump is going to be our president. We **owe** him an open mind and the chance to lead.

Our constitutional democracy **enshrines** the peaceful transfer of power and we don't just respect that, we cherish it. It also enshrines other things; the rule of law, the principle that we are all equal in rights and dignity, freedom of worship and expression. We respect and **cherish** these values too and we must defend them.

(APPLAUSE)

Now -- and let me add, our constitutional democracy demands our participation, not just every four years but all the time. So let's do all we can to keep advancing the causes and values we all hold dear; **making our economy work for everyone not just those at the top, protecting our country and protecting our planet and breaking down all the barriers that hold any American back from achieving their dreams**.

CLINTON: We've spent a year and a half **bringing together** millions of people from every corner of our country to say with one voice that we believe that the American dream is **big enough for everyone** -- for people of all **rac**es and religions, for men and women, for **immigrants**, for **LGBT people**, and people with **disabilities**. For everyone.

(APPLAUSE)

So now, our responsibility as citizens is to keep doing our part to build that better, stronger, fairer America we seek. And I know you will.

I am so grateful to stand with all of you. I want to thank Tim Kaine and Anne Holton for being our partners on this journey.

(APPLAUSE)

It has been a joy getting to know them better, and it gives me great hope and comfort to know that Tim will remain on the front lines of our democracy representing Virginia in the Senate.

(APPLAUSE)

To Barack and Michelle Obama, our country owes you an enormous debt of gratitude.

(APPLAUSE)

We -- we thank you for your graceful, determined leadership that has meant so much to so many Americans and people across the world.

And to Bill and Chelsea, Mark, Charlotte, Aidan, our brothers and our entire family, my love for you means more than I can ever express. You crisscrossed this country on our behalf and lifted me up when I needed it most -- even four-month-old Aidan who traveled with his mom.

I will always be grateful to the creative, talented, dedicated men and women at our headquarters in Brooklyn and across our country.

(APPLAUSE)

You poured your hearts into this campaign. For some of you who are veterans, it was a campaign after you had done other campaigns. Some of you, it was your first campaign. I want each of you to know that you were the best campaign anybody could have ever expected or wanted.

(APPLAUSE)

And to the millions of volunteers, community leaders, activists and union organizers who knocked on doors, talked to neighbors, posted on Facebook, even in secret, private Facebook sites...

(LAUGHTER)

(APPLAUSE)

... I want everybody coming out from behind that and make sure your voices are heard going forward.

(APPLAUSE)

To everyone who sent in contributions as small as \$5 and kept us going, thank you. Thank you from all of us.

And to the young people in particular, I hope you will hear this. I have, as Tim said, spent my entire adult life fighting for what I believe in. I've had successes and I've had setbacks. Sometimes, really painful ones. Many of you are at the beginning of your professional public and political careers.

You will have successes and setbacks, too.

This loss hurts, but please never stop believing that fighting for what's right is worth it.

(APPLAUSE)

CLINTON: It is -- it is worth it.

(APPLAUSE)

And so we need -- we need you to keep up these fights now and for the rest of your lives.

And to all the women, and especially the young women, who put their faith in this campaign and in me, I want you to know that nothing has made me prouder than to be your champion.

(APPLAUSE)

Now, I -- I know -- I know we have still not shattered that highest and hardest glass ceiling, but some day someone will and hopefully sooner than we might think right now.

(APPLAUSE)

And -- and to all the little girls who are watching this, never doubt that you are valuable and powerful and deserving of every chance and opportunity in the world to pursue and achieve your own dreams.

Finally...

(APPLAUSE)

Finally, I am so grateful for our country and for all it has given to me. I count my blessings every single day that I am an American. And I still believe as deeply as I ever have that if we stand together and work together with respect for our differences, strength in our convictions and love for this nation, our best days are still ahead of us.

(APPLAUSE)

Because, you know -- you know, I believe we are stronger together and we will go forward together. And you should never, ever regret fighting for that. You know, scripture tells us, "Let us not grow weary in doing good, for in due season, we shall reap if we do not lose heart."

So my friends, let us have faith in each other, let us not grow weary, let us not lose heart, for there are more seasons to come. And there is more work to do.

I am incredibly honoured and grateful to have had this chance to represent all of you in this consequential election.

May God bless you and may God bless the United States of America

Hello Toronto, bonsoir le Canada. Merci beaucoup pour votre hospitalité.

Trevor and his family are what Invictus is all about. Invictus is about the dedication of the men and women who served their countries, confronted hardship, and refused to be **defined by** their injuries.

Invictus is about the families and friends who faced the shock of learning that their loved ones had been injured or fallen ill - and then rallied to support them on their journey of recovery.

And above all, Invictus is about the example to the world that all service men and women - injured or not - **provide** about the importance of service and duty.

The true scale of this example was brought home to me when I left Afghanistan after my first deployment there in 2008.

As I was waiting on board the plane, the coffin of a Danish soldier was **loaded on** by his friends. Once on the flight, I was confronted with three British soldiers, all in induced comas, with missing limbs, and wrapped in plastic. The way I **viewed** service and sacrifice changed forever. And the direction of my life changed with it.

I knew that it was my responsibility to use the great platform that I have to help the world understand and be **inspired by** the spirit of those who wear the uniform.

In a world where so many have reasons to feel cynical and apathetic, I wanted to find a way for veterans to be a **beacon of light**, and show us all that we have a role to play; that we all win when we respect our friends, neighbours, and communities.

That's why we created Invictus. Not only to help veterans recover from their physical and mental wounds; but also to inspire people **to follow** their example of resilience, optimism, and service in their own lives.

We made a great start in London in 2014. We took it to the next level in Orlando last year. And over the next week - in this year as we celebrate Canada's 150th anniversary - Toronto is going to put on a Games that **draws the attention** of the world.

More competitors, more sports, more nations, more friends, more families and more people watching at home than ever before. With the people in this arena tonight - and those watching across Canada and around the world - we have the biggest crowd Invictus [has ever enjoyed](#).

In the days ahead, I know many of you will be experiencing Invictus for the first time.

I hope you're ready. I hope you're ready for some fierce competition. I hope you're ready to see the meaning of teamwork that proves [anything is possible](#) when we work together. I hope you're ready to see courage and determination that will inspire you to power through the challenges in your own life.

I hope you're ready to see role models in action that any parent will want their children to [look up to](#). And I hope you're ready to see lives change in front of your eyes.

Before I close, I want to speak directly to the competitors. For the next week, we entrust you with the Invictus spirit. You have all come such a long way. Some of you have [cheated](#) death and come back stronger than before. Some of you have overcome emotional challenges that until very recent years would have seen you written off and ignored.

And now you are here. On the [world stage](#). Flags on your chests. Representing your countries again. Supporting your teammates. And looking up into the stands, and into the eyes of your friends and families. You are all winners.

Please don't forget to love every [second of it](#). Don't forget about our friends who didn't come home from the battlefield. Don't forget those at home who still need our support. And don't forget that you are proving to the world that anything is possible.

You are Invictus. Let's [get started](#).

## Theresa May's first speech as Prime Minister

<https://www.youtube.com/watch?v=FDyZ8trge2E&t=98s>

I have just been to Buckingham Palace, where Her Majesty The Queen has asked me **to form** a new government, and I accepted.

In David Cameron, I follow in the footsteps of a great, modern Prime Minister. Under David's leadership, the government **stabilised** the economy, reduced the budget deficit, and helped more people into work than ever before.

But David's true legacy is not about the economy but about social justice. From the introduction of same-sex marriage, to taking people on **low wages** out of income tax altogether; David Cameron has led a one-nation government, and it is in that spirit that I also plan to lead.

Because not everybody knows this, but the full title of my party is the Conservative and Unionist Party, and that word '**unionist**' is very important to me.

It means we believe in the Union: the precious, precious bond between England, Scotland, Wales and Northern Ireland. But it means something else that is just as important; it means we believe in a union not just between the nations of the United Kingdom but between all of our **citizens**, every one of us, whoever we are and wherever we're from.

That means fighting against the **burning** injustice that, if you're born poor, you will die on average 9 years earlier than others.

If you're black, you're treated more harshly by the criminal justice system than if you're white.

If you're a white, working-class boy, you're less likely than anybody else in Britain to go to university.

If you're at a **state school**, you're less likely to reach the top professions than if you're educated privately.

If you're a woman, you will earn less than a man. If you suffer from mental health problems, there's not enough help to hand.

If you're young, you'll find it harder than **ever before** to own your own home.

But the mission to make Britain a country that works for everyone means more than fighting these injustices. If you're from an ordinary [working-class](#) family, life is much harder than many people in Westminster realise. You have a job but you don't always have job security. You have your own home, but you worry about paying a mortgage. You can just about manage but you worry about the [cost of living](#) and getting your kids into a good school.

If you're one of those families, if you're just managing, I want to address you directly.

I know you're working around the clock, I know you're doing your best, and I know that sometimes life can be a [struggle](#). The government I lead will be driven not by the interests of the privileged few, but by yours.

We will do everything we can to give you more control over your lives. When we take the [big calls](#), we'll think not of the powerful, but you. When we pass new laws, we'll listen not to the mighty but to you. When it comes to taxes, we'll prioritise not the wealthy, but you. When it comes to opportunity, we won't entrench the advantages of the fortunate few. We will do everything we can to help anybody, whatever your [background](#), to go as far as your talents will take you.

We are living through an important moment in our country's history. Following the referendum, we face a time of great national change.

And I know because we're *Great Britain*, that we will [rise to the challenge](#). As we leave the European Union, we will forge a bold new positive role for ourselves in the world, and we will make Britain a country that works not for a privileged few, but for every one of us.

That will be the mission of the government I [lead](#), and together we will build a better Britain.

## THERESA MAY'S SPEECH ON BREXIT

### Number 1

Dall'inizio fino a 5,25.

A little over six months ago, the British people voted for change. They voted to shape a brighter future for our country. They voted to leave the European Union and embrace the world. And they did so with their eyes open: accepting that the road ahead **will be uncertain** at times, but believing that it leads towards a brighter future for their children - and their grandchildren too.

And it is the job of this Government to deliver it. That means more than negotiating our new relationship with the EU. It means taking the opportunity of this great moment of national change to **step back** and ask ourselves what kind of country we want to be.

My answer is clear. I want this United Kingdom to emerge from this period of change stronger, fairer, more united and more **outward-looking** than ever before. I want us to be a secure, prosperous, tolerant country - a magnet for international talent and a home to the pioneers and innovators who will shape **the world ahead**.

I want us to be a truly Global Britain - the best friend and neighbour to our European partners, but a country that reaches **beyond the borders** of Europe too. A country that goes out into the world to build relationships with old friends and new allies alike.

I want Britain to be what we have the potential, talent and ambition to be. A great, global trading nation that is respected around the world and strong, confident and united at home.

That is why this Government has a Plan for Britain. One that gets us the right deal abroad but also ensures we get a better deal for ordinary working people at home.

It's why that plan sets out how we will use this moment of change to build a stronger economy and a **fairer society** by embracing genuine economic and social reform. Why our new Modern Industrial Strategy is being developed, to ensure every nation and area of the United Kingdom can **make the most** of the opportunities ahead.

Why we will go further to reform our schools to ensure every child has the knowledge and the skills they need to [thrive](#) in post-Brexit Britain. Why as we continue to bring the deficit down, we will take a balanced approach by investing in our economic infrastructure - because it can transform the growth potential of our economy and improve the quality of people's lives across the whole country.

It's why we will put the preservation of our precious Union [at the heart](#) of everything we do. Because it is only by coming together as one great union of nations and people that we can make the most of the opportunities ahead.

The result of the referendum was not a decision to [turn inward](#) and retreat from the world. Because Britain's history and culture is profoundly internationalist. We are a European country - and proud of our shared European heritage - but we are also a country that has always looked beyond Europe to [the wider world](#).

That is why we are one of the most racially diverse countries in Europe, one of the most multicultural members of the European Union, and why - whether we are talking about India, Pakistan, Bangladesh, America, Australia, Canada, New Zealand, countries in Africa or those that are closer to home in Europe - so many of us have close friends and relatives from [across the world](#).

Instinctively, we want to travel to, study in, trade with countries not just in Europe but beyond the borders of our continent.

Even now as we prepare to leave the EU, we are planning for the next biennial Commonwealth Heads of Government meeting in 2018 - a reminder of our [unique and proud](#) global relationships.

And it is important to recognise this fact. June the 23rd was not the moment Britain chose to step back from the world. It was the moment we chose to build a truly Global Britain.

I know that this - and the other reasons Britain took such a decision - is not always [well understood](#) among our friends and allies in Europe. And I know many fear that this might herald the beginning of a greater unravelling of the EU.

But let me be clear: I do not want that to happen. It would not be in the best interests of Britain. It remains [overwhelmingly](#) and compellingly in Britain's national interest that the EU should succeed. And that is why I hope in the months and years ahead we will all reflect on the lessons of Britain's decision to leave.

## Number 2

Da 5,26 fino a 10,28

So, let me take this opportunity to [set out](#) the reasons for our decision and to address the people of Europe directly.

It's not simply because our history and culture is profoundly internationalist, important though that is. Many in Britain have always felt that the United Kingdom's place in the European Union came [at the expense](#) of our global ties, and of a bolder embrace of free trade with the wider world.

There are other important reasons too. Our political traditions are different. Unlike other European countries, we have no [written constitution](#), but the principle of Parliamentary Sovereignty is the basis of our unwritten constitutional settlement.

We have only a recent history of devolved governance - though it has rapidly embedded itself - and we have little history of coalition government.

The public expect to be able to hold their governments to account very directly, and as a result supranational institutions as strong as those created by the European Union sit very uneasily [in relation to](#) our political history and way of life.

And, while I know Britain might at times have been seen as an awkward member state, the European Union has struggled to deal with the diversity of its member countries and their interests. It bends towards uniformity, not [flexibility](#).

David Cameron's negotiation was a valiant final attempt to make it work for Britain - and I want to thank all those elsewhere in Europe who helped him reach an agreement - but the blunt truth, as we know, is that there was not enough flexibility on many important [matters](#) for a majority of British voters.

Now I do not believe that these things apply uniquely to Britain. Britain is not the only member state where there is a strong attachment to accountable and democratic government, such a strong internationalist mindset, or a belief that diversity within Europe should be celebrated.

And so, I believe there is a lesson in Brexit not just for Britain but, if it wants to succeed, for the EU itself. Because our continent's great strength has always been its diversity.

And there are two ways of dealing with different [interests](#). You can respond by trying to hold things together by force, tightening a vice-like grip that ends up crushing into tiny pieces the very things you want to protect.

Or you can respect difference, [cherish it](#) even, and reform the EU so that it deals better with the wonderful diversity of its member states.

So, to our friends across Europe, let me say this. Our vote to leave the European Union was no rejection of the values we share. The decision to leave the EU represents no desire to become [more distant](#) to you, our friends and neighbours.

It was no attempt to do harm to the EU itself or to any of its remaining member states. We do not want to [turn the clock back](#) to the days when Europe was less peaceful, less secure and less able to trade freely.

It was a vote to restore, as we see it, our parliamentary democracy, national self-determination, and to become even more global and internationalist in action and in spirit.

We will continue to be reliable partners, [willing allies](#) and close friends. We want to buy your goods and services, sell you ours, trade with you as freely as possible, and work with one another to make sure we are all safer, more secure and more prosperous through continued friendship.

You will still be welcome in this country as we hope our citizens will be welcome in yours. At a time when together we face a serious threat from our enemies, Britain's unique intelligence capabilities will continue to help to keep people in Europe safe from terrorism.

And at a time when there is [growing concern](#) about European security, Britain's servicemen and women, based in European countries including Estonia, Poland and Romania, will continue to do their duty.

We are leaving the European Union, but we are not leaving Europe.

And that is why we seek a new and [equal partnership](#) - between an independent, self-governing, Global Britain and our friends and allies in the EU. Not partial membership of the European Union, associate membership of the European Union, or anything that leaves us half-in, half-out.

We do not seek to adopt a model already enjoyed by other countries. We do not seek to hold on to bits of [membership](#) as we leave.

No, the United Kingdom is leaving the European Union. And my job is to get the [right deal](#) for Britain as we do.

# Michelle Obama's speech for Let Girls Learn

<https://www.youtube.com/watch?v=WVz9SFVnHk0>

Hi, everyone. It is a pleasure to be here with all of you on this International Women's Day as we mark **the first anniversary** of Let Girls Learn. And today, we want to celebrate all of the wonderful progress we've made and the momentum we're seeing around girls' education across the globe.

And I know that each of us here today has a story like Samantha shared about how we first **got engaged** in this issue — the moment our heart first broke or we felt that first flare of outrage when we realized that 62 million girls worldwide — girls who are just as smart and hard-working as we are — aren't getting the opportunities that we sometimes **take for granted**.

For me, it was the drumbeat of horrifying stories: little girls being brutally assaulted on their way to school, being forced to marry and bear children when they're barely even teenagers. Girls in every corner of the globe facing **grave danger** simply because they were full and equal human beings -- that's what they decided -- worthy of developing their boundless potential.

And the more I travelled and met with girls and learned from experts about this issue, the more I realized that the barriers to girls' education isn't just **resources**. It's not just about access to scholarships or transportation or school bathrooms. It's also about attitudes and beliefs — the belief that girls simply **aren't worthy** of an education; that women should have no role outside the home; that their bodies aren't their own, their minds don't really matter, and their voices simply shouldn't be heard.

The ability to read, write, and analyse; the confidence to **stand up** and demand justice and equality; the qualifications and connections to get your foot in that door and take your seat at that table -- all of that starts with education. And trust me, girls around the world, they understand this. They feel it **in their bones**, and they will do whatever it takes to get that education.

These girls risk everything — the rejection of their communities, the violation of their bodies — everything, just to go to school each day.

You see, they know that education is their only path to [self-sufficiency](#). It is their only chance to shape their own fate rather than having the limits of their lives dictated to them by others.

So, it's not [surprising](#) that over the past year since we launched Let Girls Learn, we have been overwhelmed by the response we've received.

This issue is truly [resonating](#) as folks in every sector are stepping up to take action on behalf of these girls around the world. From day one, the U.S. government has been leading the way with State, USAID, the Millennium Challenge Corporation, investing hundreds of millions of dollars.

Just 12 months after we launched Let Girls Learn, we're seeing the impact of these efforts all around the world. We see it in the story of a girl named Fiker from Ethiopia who, at the age of 13, found out that her parents were planning to [marry her off](#) to a man she'd never met. But Fiker had learned about the dangers of early marriage from a USAID program she was involved in, so she refused to [go through](#) with the marriage. She went on to graduate first in her entire sixth-grade class.

So, I want to close by thanking all of you once again for everything you have done in this year, and everything we will continue to do together. And I do look forward to [continuing](#) our work together in the months and years to come. And I cannot wait to see all the doors we will open, all the fortunes we -- and futures we transform for girls across the globe.

So, you guys ready to [get to work](#)? (Applause.) You think we can get this done? (Applause.) All right. Thank you all so much. God bless. (Applause.)

**Oral Testimony of Mylan CEO Heather Bresch before the United States House of Representatives  
Committee on Oversight and Government Reform**

**Wednesday, September 21, 2016**

Good afternoon Chairman Chaffetz, Ranking Member Cummings and members of the [committee](#).

I'm Heather Bresch, the CEO of Mylan and I appreciate the chance to be with you today. Before I answer your questions, I would like to share with you little information on my background and Mylan and tell you what we have done in the last weeks [to address](#) the concerns about the price and the availability of EpiPens.

I grew up in a small town in West Virginia, in a close family with a strong [work ethic](#). I joined Mylan in 1992 as an entry level clerk, performing basic administrative tasks in the basement of the company's manufacturing facility and [worked through](#) 15 different roles in the company until I reached my current position.

When I started with Mylan, our sales were approximately \$100 million, with less than 500 employees. Today, our sales are in [excess of](#) \$11 billion, with more than 40,000 employees and 1 in 13 U.S. prescriptions is filled with one of Mylan's medications.

I would like to highlight just two facts about Mylan.

First, we aren't the kind of niche pharmaceutical company that offers only a [handful](#) of products. In fact, we are the exact opposite. Over the last 55 years, we [have grown](#) to offer more than two thousand, seven hundred products, predominantly generics, made at more than 50 manufacturing facilities, capable of producing up to 80 billion doses annually, and we see [the need](#) to do more.

This year alone, we will invest approximately \$1.2 billion in research and development and manufacturing, or roughly \$3 million per day, to bring [affordable access](#) to many more complex products, such as insulin and biosimilars.

Second, our business is predicated on high volumes of hundreds of products. In the U.S. alone, we offer a [portfolio](#) of 635 products, which translated last year to more than 21 billion doses available

to patients, at an average price to Mylan of 25 cents. Over the last decade, Mylan's medicines [have reduced](#) the U.S. healthcare costs by approximately \$180 billion.

This is the an EpiPen...

It may look simple, but it is actually [quite complex](#). In the event of anaphylaxis – a severe allergic reaction – the more than 15 critical components in this device must work every time and in seconds to deliver medicine to treat life-threatening symptoms quickly and without fail, many times [self-administered](#) by the person in the state of anaphylaxis.

Before Mylan acquired the company that owned EpiPen in 2007, fewer than 1 million of the 43 million people at risk had access to an epinephrine auto injector. At the same time, it [was estimated](#) that anaphylaxis was causing 1,500 deaths annually. We read stories of children dying at school because they did not have access to an epinephrine auto-injector or due to [a lack of](#) education about the need. We saw this as an unacceptable and largely preventable health problem.

We worked diligently and invested [to enhance](#) EpiPen and make it more available. In fact, we have invested more than one billion dollars in these efforts over the last few years and have succeeded [on many fronts](#).

We put an improved EpiPen device on the market in 2009.

We now reach 80% more patients.

And today, approximately 85% of EpiPen patients pay less than \$100 for 2 and a majority less than \$50.

And we have made great strides in [providing access](#) to EpiPens in public places, starting with schools. In the last four years alone, Mylan provided seven hundred thousand free EpiPens to more than 66,000 schools across America, with [no strings attached](#). Our pens were used hundreds of times, including on many children who had no known allergies.

I know there is considerable concern and [skepticism](#) about the pricing of EpiPen and I think many people incorrectly assume we make \$600 off of each pen. It's simply not true.

Recent EpiPen price increases have not yielded the revenue to Mylan that many assume. In the complicated world of pharmaceutical [pricing](#) there is something known as the Wholesale

Acquisition Cost. Since 2014, the Wholesale Acquisition Cost for 2 EpiPens increased from \$401 to \$608, or 51%.

But the net revenue to Mylan after rebates and fees – what we actually received – increased from \$235 to \$274. In other words, the annual increase to Mylan for the last 2 years was approximately 8% per year, or 16.6% [cumulatively](#) during this period.

From that, you must subtract our cost of goods which is \$69. This leaves a balance of \$205. After subtracting EpiPen related costs our profit is \$100, or approximately \$50 per pen.

In the last few weeks, we have confronted the EpiPen issue [head on](#). Our program has four parts:

We announced the first ever generic of the EpiPen product, which will be priced at \$300. This [unprecedented](#) move is the fastest and most direct way to reduce the price for all patients.

Second, we are creating a direct ship option, allowing patients to purchase the generic product directly from Mylan.

Third, we increased our EpiPen Savings Card for the brand product from \$100 to \$300.

Fourth, we doubled the [eligibility](#) of patients receiving free pens from \$48,600 to \$97,200 for a family of four.

With these changes, our profit per pen will be substantially lower than [it is now](#).

I'm honoured and proud to be the CEO of Mylan and I've spent my entire career working to [break down](#) barriers to access, expand access to high quality medicine and lower healthcare costs.

I wish we [had better anticipated](#) the magnitude and acceleration of the rising financial issues for a growing minority of patients who may have ended up paying the full wholesale acquisition cost or more. We never intended this. We listened and focused on this issue and [came up](#) with an immediate and sustainable solution.

Going forward, we will continue our leadership in developing high quality medicines and [expanding access](#).

Hello, Chicago.

If there is anyone out there who still doubts that America is a place where all things are possible, who still **wonders** if the dream of our founders is alive in our time, who still questions the power of our democracy, tonight is your answer.

It's the answer told by lines that stretched around schools and churches in numbers this nation **has never seen**, by people who waited three hours and four hours, many for the first time in their lives, because they believed that this time must be different, that their voices could be that difference.

It's the answer **spoken by** young and old, rich and poor, Democrat and Republican, black, white, Hispanic, Asian, Native American, gay, straight, disabled and not disabled. Americans who sent a message to the world that we have never been just a **collection** of individuals or a collection of red states and blue states.

We are, and always will be, the United States of America.

It's the answer that led those who've been told for so long by so many to be cynical and fearful and doubtful about what we can achieve to **put their hands** on the arc of history and bend it once more toward the hope of a better day.

It's been a long time coming, but tonight, because of what we did on this date in this election at this **defining** moment change has come to America.

A little bit earlier this evening, I received an **extraordinarily gracious** call from Sen. McCain.

Sen. McCain fought long and hard in this campaign. And he's fought even longer and harder for the country that he loves. He **has endured** sacrifices for America that most of us cannot begin to imagine. We are better off for the service **rendered** by this brave and selfless leader.

I congratulate him; I congratulate Gov. Palin for all that they've achieved. And I look forward to working with them to renew this nation's promise in the months ahead.

I want to thank my partner in this journey, a man who **campaigned** from his heart, and spoke for the men and women he grew up with on the streets of Scranton and rode with on the train home to Delaware, the vice president-elect of the United States, Joe Biden.

And I would not **be standing** here tonight without the unyielding support of my best friend for the last 16 years, the rock of our family, the love of my life, the nation's next first lady Michelle Obama.

Sasha and Malia, I love you both more than you can imagine. And you have earned the new puppy that's coming with us to the new White House.

And while she's no longer with us, I know my grandmother's watching, along with the family that made me who I am. I miss them tonight. I know that my debt to them is **beyond measure**.

To my sister Maya, my sister Alma, all my other brothers and sisters, thank you so much for all the support that you've given me. I am grateful to them.

And to my campaign manager, David Plouffe, the unsung **hero** of this campaign, who built the best -- the best political campaign, I think, in the history of the United States of America.

To my chief strategist David Axelrod, who's been a partner with me every **step of the way**.

To the best campaign team ever assembled in the history of politics. You made this happen, and I am forever grateful for what you've sacrificed to **get it done**.

## NUMBER 2

Da 6,05 a 12,15

But above all, I will never forget who this victory truly **belongs to**. It belongs to you. It belongs to you.

I was never the **likeliest** candidate for this office. We didn't start with much money or many endorsements. Our campaign was not **hatched** in the halls of Washington. It began in the backyards of Des Moines and the living rooms of Concord and the front porches of Charleston. It

was built by working men and women, who **dug into** what little savings they had to give \$5 and \$10 and \$20 to the cause.

It grew strength from the young people who rejected the myth of their generation's **apathy**, who left their homes and their families for jobs that offered little pay and less sleep.

It drew strength from the not-so-young people, who braved the bitter cold and **scorching** heat to knock on doors of perfect strangers, and from the millions of Americans who volunteered and organized and proved that more than two centuries later a government of the people, by the people, and for the people **has not perished** from the Earth.

This is your victory.

And I know you didn't do this just to win an election. And I know you didn't do it for me.

You did it because you understand the **enormity** of the task that lies ahead. For even as we celebrate tonight, we know the challenges that tomorrow will bring are the greatest of our lifetime -- two wars, a planet in **peril**, the worst financial crisis in a century.

Even as we stand here tonight, we know there are brave Americans **waking up** in the deserts of Iraq and the mountains of Afghanistan to risk their lives for us.

There are mothers and fathers who will **lie awake** after the children fall asleep and wonder how they'll make the mortgage or pay their doctors' bills or save enough for their child's college education.

There's new energy to **harness**, new jobs to be created, new schools to build, and threats to **meet**, alliances to repair.

The road ahead will be long. Our climb will be **steep**. We may not get there in one year or even in one term. But, America, I have never been more hopeful than I am tonight that we will get there.

I promise you, we as a people will **get there**.

There will be **setbacks** and **false starts**. There are many who won't agree with every decision or policy I make as president. And we know the government can't solve every problem.

But I will always be honest with you about the challenges we face. I will listen to you, especially when we disagree. And, above all, I will ask you to join in the work of **remaking** this nation, the only way it's been done in America for 221 years -- block by block, **brick by brick**, calloused hand by calloused hand.

What began 21 months ago in the depths of winter cannot end on this autumn night.

This victory alone is not the change we seek. It is only the chance for us to [make that change](#). And that cannot happen if we go back to the way things were.

It can't happen without you, without a new spirit of service, a new spirit of sacrifice.

So, let us summon a new spirit of patriotism, of responsibility, where each of us resolves to pitch in and work harder and [look after](#) not only ourselves but each other.

Let us remember that, if this financial crisis taught us anything, it's that we cannot have a [thriving](#) Wall Street while Main Street suffers.

In this country, we rise or fall as one nation, as one people. Let's resist the temptation to fall back on the same partisanship and pettiness and immaturity that [has poisoned](#) our politics for so long.

Let's remember that it was a man from this state who first carried the banner of the Republican Party to the White House, a party founded on the values of [self-reliance](#) and individual liberty and national unity.

Those are values that we all share. And while the Democratic Party has won a great victory tonight, we do so with a measure of humility and determination to heal the divides that [have held back](#) our progress.

As Lincoln said to a nation [far more divided](#) than ours, we are not enemies but friends. Though passion may have strained, it must not break our bonds of affection.

And to those Americans whose support I have [yet to earn](#), I may not have won your vote tonight, but I hear your voices. I need your help. And I will be your president, too.

And to all those watching tonight from beyond our shores, from parliaments and palaces, to those who are huddled [around](#) radios in the forgotten corners of the world, our stories are singular, but our destiny is shared, and a new dawn of American leadership is [at hand](#).

### NUMBER 3

Da 12,15 alla fine.

To those -- to those who would tear [the world down](#): We will defeat you. To those who seek peace and security: We support you. And to all those who have wondered if America's beacon still burns

as bright: Tonight, we proved once more that the true strength of our nation comes not from the might of our arms or the scale of our wealth, but from the **enduring power** of our ideals: democracy, liberty, opportunity and unyielding hope.

That's the true genius of America: that America can change. Our union can **be perfected**. What we've already achieved gives us hope for what we can and must achieve tomorrow.

This election had many **firsts** and many stories that will be told for generations. But one that's on my mind tonight's about a woman who cast her ballot in Atlanta. She's a lot like the millions of others who stood in line to make their voice heard in this election except for one thing: Ann Nixon Cooper is 106 years old.

She was born just a generation **past slavery**; a time when there were no cars on the road or planes in the sky; when someone like her couldn't vote for two reasons -- because she was a woman and because of the colour of her skin.

And tonight, I think about all that she's seen **throughout** her century in America -- the heartache and the hope; the struggle and the progress; the times we were told that we can't, and the people who **pressed on** with that American creed: Yes, we can.

At a time when women's voices were silenced and their hopes dismissed, she lived to see them stand up and **speak out** and reach for the ballot. Yes, we can.

When there was despair in the dust bowl and depression across the land, she saw a nation conquer fear itself with a New Deal, new jobs, a new sense of common purpose. Yes, we can.

When the bombs fell on our harbour and tyranny **threatened** the world, she was there to witness a generation rise to greatness and a democracy was saved. Yes, we can.

She was there for the buses in Montgomery, the hoses in Birmingham, a bridge in Selma, and a preacher from Atlanta who told a people that "We Shall Overcome." Yes, we can.

A man **touched down** on the moon, a wall came down in Berlin, a world was connected by our own science and imagination.

And this year, in this election, she **touched** her finger to a screen, and cast her vote, because after 106 years in America, through the best of times and the **darkest** of hours, she knows how America can change.

Yes, we can.

America, we have [come so far](#). We have seen so much. But there is so much more to do. So tonight, let us ask ourselves -- if our children should live to see the next century; if my daughters should be so lucky to live as long as Ann Nixon Cooper, what change will they see? What progress will we have made?

This is our chance to answer that call. This is our moment.

This is our time, to put our people back to work and open doors of opportunity for our kids; to restore prosperity and promote the cause of peace; to [reclaim](#) the American dream and reaffirm that fundamental truth, that, out of many, we are one; that while we breathe, we hope. And where we are met with [cynicism](#) and doubts and those who tell us that we can't, we will respond with that timeless creed that sums up the spirit of a people: Yes, we can.

Thank you. God bless you. And may God bless the United States of America.

She states everyone is 9)\_\_\_\_\_INDEBTED\_\_\_\_\_to the emergency services who risk their lives, while saving others.

On a more personal note, the Queen says that she thinks that no one \_\_\_\_\_10\_\_\_\_\_HAD INVENTED the term "platinum" to describe a 70-year-long marriage when she was born. The Queen says Prince Philip has chosen to slow down a bit, but his support and sense of humour will be\_11\_ \_\_\_\_\_AS STRONG AS EVER.

Then the Queen turns her attention to another type of "family", the Commonwealth, which she considers capable of 12 \_\_\_\_\_BRINGING PEOPLE TOGETHER and will gather 52 nations for 13 \_\_\_\_\_A SUMMIT.

## The Queen's Christmas message for 2017

<https://www.youtube.com/watch?v=5xz-djN-cgs>

Sixty years ago today, a young woman spoke about the speed of technological change as she presented the first television broadcast **of its kind**. She described the moment as a landmark.

QUEEN (in archival footage): Television has made it possible for many of you to see me in your homes on Christmas Day. My own family often **gather round** to watch television, as they are at this moment. And that is how I imagine you now.

Six decades on, the presenter has evolved somewhat, as has the technology she described. Back then, who could have imagined that people would one day be watching this on laptops and mobile phones, as some of you are today?

But I'm also **struck** by something that hasn't changed - that whatever the technology, many of you will be watching this at home.

We think of our homes as places of warmth, familiarity and love - of shared stories and memories - which is perhaps why, at this time of year, so many return to where they grew up. There is a timeless **simplicity** to the pull of home. For many, the idea of home reaches beyond a physical building, to a home town or city.

This Christmas, I think of London and Manchester, whose powerful identities shone through over the past 12 months, in the face of **appalling** attacks. In Manchester, those targeted included children who had gone to see their favourite singer.

A few days after **the bombing**, I had the privilege of meeting some of the young survivors and their parents.

I described that hospital visit as a privilege because the patients I met were an example to us all, showing extraordinary bravery and **resilience**. Indeed, many of those who survived the attack

came together just days later for a benefit concert. It was a powerful reclaiming of the ground and of the city those young people call home.

We expect our homes to be a place of safety - sanctuary, even - which makes it all the more shocking when the comfort they provide [is shattered](#). A few weeks ago, the Prince of Wales visited the Caribbean in the aftermath of hurricanes that destroyed entire communities.

And here, in London, who can forget the sheer awfulness of the Grenfell Tower fire? Our thoughts and prayers are with all those who died and those who lost so much, and we [are indebted](#) to members of the emergency services who risked their own lives this past year, saving others.

Many of them, of course, will not be at home today, because they are working to protect us. Reflecting on these events makes me grateful for the blessings of home and family and, in particular, for 70 years of marriage. I don't know that anyone [had invented](#) the term 'platinum' for a 70th wedding anniversary, when I was born. You weren't expected to be around that long.

Even Prince Philip has decided it's time to slow down a little, having, as he economically put it, done his bit. But I know his support and unique sense of humour will remain [as strong as ever](#) as we enjoy spending time this Christmas with our family and look forward to welcoming new members into it next year.

In 2018, I will open my home to a different type of family, the leaders of the 52 nations of the Commonwealth, as they gather in the UK for a summit.

The Commonwealth has an inspiring way of [bringing people together](#), be it through the Commonwealth Games, which begin in a few months' time on Australia's Gold Coast, or through bodies like the Commonwealth Youth Orchestra and Choir - a reminder of how truly vibrant this international family is.

Today, we celebrate Christmas, which, itself, is sometimes described as a [festival of the home](#). Families travel long distances to be together.

Volunteers and charities, as well as many churches, arrange meals for the homeless and those who would otherwise be alone on Christmas Day. We remember the birth of Jesus Christ, whose only sanctuary was a stable in Bethlehem. He knew rejection, hardship and persecution.

And, yet, it is Jesus Christ's generous love and example which has inspired me through good times and bad. Whatever your own experience is this year, wherever and however you are watching, I wish you a peaceful and very happy Christmas.

## The Queen's speech at the Netherlands State Banquet

<https://www.youtube.com/watch?v=GKHRqCOWc4o>

Your Majesty,

Prince Charles and I are **delighted** to welcome you and Queen Máxima to Buckingham Palace this evening.

Through this State visit, we celebrate the **enduring friendship** which has enabled our two nations to prosper and grow, side by side, as trading partners, and as North Sea neighbours. This visit also provides the opportunity for great happiness, and to welcome old friends to my home.

Over the many hundreds of years of our shared history, there are few nations who are able to claim a **closer bond**. This year marks the three hundred and thirtieth anniversary of the Glorious Revolution, when your ancestor, Prince William III of Orange, came to these shores and restored stability after **turbulence**.

Over 250 years later, in 1940, Queen Wilhelmina rallied the Government in Exile. She became a **source of inspiration** from London during the Second World War, and upon her return to The Netherlands a symbol of liberation.

Through Your Majesty's visits and your acts of friendship, you have formed your **own personal connection** with the British people. During your time as a sixth form student at Atlantic College in Wales, you kept our local communities safe by volunteering for the Life Boat service, embodying the true spirit of friends supporting **one another**.

To this day, our close relationship greatly contributes to the economic and cultural life of Britain. The Netherlands are one of The United Kingdom's largest European **investors**. We have a thriving Dutch community, and artistic and sporting exchanges are at an **all time**

high. British universities are a top destination for Dutch students, and hundreds of Dutch and British scientists are teaching, researching and collaborating in both countries.

Internationally we have a strong shared commitment to the transatlantic alliance, and it is no coincidence that of the last twelve Secretaries General of NATO, six have been either British or Dutch.

Our deep bond is seen as our obligation to uphold the rule of law in the United Nations Security Council and the Organisation for the Prohibition of Chemical Weapons based in The Hague. It is also evident in our daily co-operation to combat cross border crime and terrorism.

I recall the State Visit of your grandmother Queen Juliana and Prince Bernhard in 1972, when I spoke of how our nations' close understanding and relationship would become increasingly important as a new configuration of Europe was emerging. As we look toward a new partnership with Europe, it is our shared values and commitment to each other, that are our greatest asset, and demonstrate that even through change, our enduring alliance remains strong, and as innovators, traders and internationalists we look with confidence to the future.

As we continue to work together to ensure peace, prosperity and security, I am confident that this friendship between The United Kingdom and The Netherlands, which we greatly treasure, will continue to deepen, and to prosper.

The journalist says the Obamas talked both about 4) \_\_\_\_\_ THEIR DAUGHTERS and 5) \_\_\_\_\_ PRESIDENT'S MOTHER IN LAW

The interviewers and the interviewees are 6) \_\_\_\_\_ SITTING IN THE RED ROOM.

In a previous public appearance Michelle Obama had talked about seeing her daughters 7) \_\_\_\_\_ HEADING OFF \_\_\_\_\_ to school, while living in a house that was built by slaves.

Cagle asks Michelle Obama if she thought about the White House being built by slaves the day she 8) \_\_\_\_\_ MOVED IN

She didn't think about it, due to the 9) \_\_\_\_\_ CAOTIC NATURE of the transition and because the thought is too 10) \_\_\_\_\_ DEEP and probably it happened by the summer.

She believes coming into that kind of life from a previous state of 11) \_\_\_\_\_ RELATIVE NORMALITY /NORMALCY \_\_\_\_\_ is like a whirlwind.

She adds that watching her mother move into the White House was an important moment, given the woman 12) \_\_\_\_\_ VERY POOR UPBRINGING/WORKING CLASS ORIGINS

The first grandmother-in-law had a vastly different life if compared to what they 13) \_\_\_\_\_ HAVE (BEEN) EXPERIENCED (ING) at the White House.

## Part 2 da 3.13 a fine

When asked what life has been like with his mother-in-law, President Obama replies she was invaluable in providing 1) \_\_\_\_\_ CONTINUITY AND PERSPECTIVE for their daughters.

Obama believes it is crucial for their daughters to have that intergenerational relationship as it assures continuity in 2) \_\_\_\_\_ A DIFFERENT ENVIRONMENT.

The First Lady's mother spent her childhood in a much 3) \_\_\_\_\_ MORE RESTRICTED time and place and – as many other Afro-Americans of 4) \_\_\_\_\_ HER GENERATION - she did not allow herself to dream big.

Obama's mother-in-law even visited the Sistine Chapel and had an 5) \_\_\_\_\_ AUDIENCE with the Pope.

Obama believes sometimes it is possible to 6) \_\_\_\_\_ GET A SENSE of how much progress has been made through his mother-in-law's eyes.

One of the interviewers, Sandra Westfall, thinks the most 7) \_\_\_\_\_ ENDURING LEGACY of the Obama presidency is that the Obamas went out of their way in order to make this Office 8) \_\_\_\_\_ TRULY ACCESIBLE to all Americans.

She confesses she visited the White House for many 9) \_\_\_\_\_ OUTSIDE THE BOX activities. Then she asks if that was a 10) \_\_\_\_\_ CONSCIOUS DECISION to make the White house fun and she also asks if Michelle had 11) \_\_\_\_\_ TURNED DOWN any idea she found too crazy.

Michelle Obama believes it is important to make people feel at home in the White House, especially for kids coming from all 12) \_\_\_\_\_ SOCIO-ECONOMIC BACKGROUD/S.

She also admits she planned some activities thinking about activities their daughters would 13) \_\_\_\_\_ LOVE TO SEE at the White House.

President Obama finally says they never believed the notion there was early on, that if you break traditions or do things 14) \_\_\_\_\_ IN A DIFFERENT WAY somehow the dignity and reverence of the Office is compromised but the Obamas never 15) \_\_\_\_\_ AGREED WITH THAT/BOTHERED/WORRIED ABOUT.

## President Donald J. Trump's Address to the Nation on the Crisis at the Border

Da inizio a 4,49

THE PRESIDENT: My fellow Americans: Tonight, I am speaking to you because there is a growing humanitarian and security crisis at our [southern border](#).

Every day, Customs and Border Patrol agents encounter thousands of illegal immigrants trying to enter our country. We are out of space to [hold them](#), and we have no way to promptly return them back home to their country.

America proudly welcomes millions of [lawful](#) immigrants who enrich our society and contribute to our nation. But all Americans are hurt by uncontrolled, illegal migration. It strains public resources and drives down jobs and wages. Among those hardest hit are African Americans and Hispanic Americans.

Our southern border is a [pipeline](#) for vast quantities of illegal drugs, including meth, heroin, cocaine, and fentanyl. Every week, 300 of our citizens are killed by heroin alone, 90 percent of which [floods](#) across from our southern border. More Americans will die from drugs this year than were killed in the entire Vietnam War.

In the last two years, ICE officers made 266,000 arrests of aliens with criminal records, including those charged or convicted of 100,000 assaults, 30,000 sex crimes, and 4,000 violent killings. Over the years, thousands of Americans have been [brutally killed](#) by those who illegally entered our country, and thousands more lives will be lost if we don't act right now.

This is a [humanitarian](#) crisis — a crisis of the heart and a crisis of the soul.

Last month, 20,000 migrant children were illegally [brought into](#) the United States — a dramatic increase. These children are used as human pawns by vicious coyotes and ruthless gangs. One in

[https://www.youtube.com/watch?v=9eL2\\_AN0d3U](https://www.youtube.com/watch?v=9eL2_AN0d3U)

three women are sexually assaulted on the dangerous trek up through Mexico. Women and children are the biggest victims, by far, of our broken system.

This is the tragic reality of illegal immigration on our southern border. This is the cycle of human suffering that I am determined to end.

My administration has presented Congress with a [detailed](#) proposal to secure the border and stop the criminal gangs, drug smugglers, and human traffickers. It's a tremendous problem. Our proposal [was developed by](#) law enforcement professionals and border agents at the Department of Homeland Security. These are the resources they have requested to properly perform their mission and keep America safe. In fact, safer than ever before.

The proposal from Homeland Security includes [cutting-edge technology](#) for detecting drugs, weapons, illegal contraband, and many other things. We have requested more agents, immigration judges, and bed space to process the sharp rise in unlawful migration fuelled by our very strong economy. Our plan also contains an urgent request for humanitarian assistance and medical support.

Furthermore, we have asked Congress to close border security [loopholes](#) so that illegal immigrant children can be safely and humanely returned back home.

Finally, as part of an [overall](#) approach to border security, law enforcement professionals have requested \$5.7 billion for a physical barrier. At the request of Democrats, it will be a steel barrier rather than a concrete wall. This barrier is [absolutely critical](#) to border security. It's also what our professionals at the border want and need. This is just common sense.

The border wall would very quickly pay for itself. The cost of illegal drugs exceeds \$500 billion a year — vastly more than the \$5.7 billion we have requested from Congress. The wall will also be paid for, indirectly, by the great new [trade deal](#) we have made with Mexico.

Da 4,50 alla fine.

Senator Chuck Schumer — who you will be hearing from later tonight — has repeatedly supported a [physical barrier](#) in the past, along with many other Democrats. They changed their mind only after I was elected President.

Democrats in Congress have refused to [acknowledge](#) the crisis. And they have refused to provide our brave border agents with the tools they desperately need to protect our families and our nation. The federal government remains shut down for one reason and one reason only: because Democrats [will not fund](#) border security.

My administration is doing everything in our power to help those impacted by the situation. But the only solution is for Democrats to pass a [spending](#) bill that defends our borders and re-opens the government.

This situation could be solved in a 45-minute meeting. I have invited Congressional leadership to the White House tomorrow to get this done. Hopefully, we can [rise above](#) partisan politics in order to support national security.

Some have suggested a barrier is immoral. Then why do wealthy politicians build walls, fences, and gates around their homes? They don't build walls because they hate the people on the outside, but because they love the people on the inside. The only thing that is immoral is the politicians to do nothing and continue to allow more innocent people to be so [horribly victimized](#).

America's heart [broke](#) the day after Christmas when a young police officer in California was savagely murdered in cold blood by an illegal alien, who just came across the border. The life of an American hero was stolen by someone who had no right to be in our country.

Day after day, precious lives are [cut short](#) by those who have violated our borders. In California, an Air Force veteran was raped, murdered, and beaten to death with a hammer by an illegal alien with a long criminal history. In Georgia, an illegal alien was recently [charged with](#) murder for

[https://www.youtube.com/watch?v=9eL2\\_AN0d3U](https://www.youtube.com/watch?v=9eL2_AN0d3U)

killing, beheading, and dismembering his neighbour. In Maryland, MS-13 gang members who arrived in the United States as **unaccompanied** minors were arrested and charged last year after viciously stabbing and beating a 16-year-old girl.

Over the last several years, I've met with dozens of families whose loved ones were stolen by illegal immigration. I've held the hands of the weeping mothers and embraced the grief-stricken fathers. So sad. So terrible. I will never forget the pain in their eyes, the **tremble** in their voices, and the sadness gripping their souls.

How much more American blood must we **shed** before Congress does its job?

To those who refuse to compromise in the name of border security, I would ask: Imagine if it was your child, your husband, or your wife whose life was so cruelly shattered and totally broken? To every member of Congress: Pass a bill that **ends this crisis**.

To every citizen: Call Congress and tell them to finally, after all of these decades, secure our border. This is a choice between right and wrong, justice and injustice. This is about whether we **fulfill** our sacred duty to the American citizens we serve.

When I took the Oath of Office, I **swore to** protect our country. And that is what I will always do, so help me God.

Thank you and goodnight.

## NUMBER 1 – Fino a 5:00

Tena Koutou katoa, mai Te Whare Ariki o te Kuini

As-Salam Alaykum.

Good morning. Today we gather in a place of **worship**, faith, and friendship. We gather here in Al Noor mosque, a home for community and for family.

On the 15th of March, tragedy unfolded in this room.

A terrorist attempted to sow division and hatred in a place that stands for togetherness and selflessness. He thought he could **redefine** what this space was.

I am here to help you show the world that he failed.

Now, when I woke up in London on the morning of 15th of March, I could not believe the news.

An act of **unspeakable hate** had unfolded in New Zealand – a country of peace.

And it had unfolded in Christchurch – a city that has endured so much more than its fair share of hardship.

And when it was confirmed that 50 New Zealand Muslims had **been killed** – murdered while peacefully worshiping – again, I just could not believe the news.

I have been visiting New Zealand since before I could walk.

I have stood alongside New Zealanders in moments of joy and celebration.

And I have stood alongside New Zealanders in this city in moments of real pain, after loved ones, homes, and livelihoods had been lost after the 2011 earthquake.

And what I have known of New Zealanders from the earliest moments of my life, is that you are a people who look out to the world with optimism. You have a famous strength of character. You have a warm-hearted interest about cultures, religion, and people thousands of miles from your shores.

You acknowledge, debate, and grapple with your own cultural history in a way that has no real parallel in any other nation.

So again, I could not believe the news I was hearing on the 15th of March.

A country that seemed to be bucking global trends of division and anger, looked like maybe it too would fall victim to those intent on promoting fear and distrust. I have no doubt that this is what the terrorist had hoped for.

But New Zealanders had other plans.

The people of Al Noor and Linwood mosques had other plans.

In a moment of acute pain, you stood up and you stood together. And in reaction to tragedy, you achieved something remarkable.

I have had reasons myself to reflect on grief and sudden pain and loss in my own life. And in my role, I have often seen up close the sorrow of others in moments of tragedy, as I have today.

What I have realised is that of course grief can change your outlook. You don't ever forget the shock, the sadness, and the pain.

But I do not believe that grief changes who you are. Grief – if you let it – will **reveal** who you are.

It can reveal depths that you did not know you had.

The startling weight of grief can burst any bubble of complacency in how you live your life, and help you to **live up** to the values you espouse.

This is exactly what happened here in Christchurch on the 15th of March.

An act of violence was designed to change New Zealand. But instead, the grief of a nation revealed just how deep your wells of empathy, compassion, warmth, and love truly run.

You started showing what New Zealand really was almost immediately. On the road outside these walls people pulled their cars over and started **caring for** the victims even when they did not know if it was safe to do so. Your neighbours opened their doors to those who were fleeing the violence.

Your first responders **apprehended** the killer and immediately worked to save lives in the most challenging of circumstances.

In the days that followed, thousands of bouquets of flowers filled public spaces in this city, brightening the **darkest of moments**.

## **NUMBER 2 – Da 5:01**

Your Prime Minister showed extraordinary **leadership** of compassion and resolve, providing an example to us all.

Imam Gamal Fouda - you displayed wisdom and grace that is almost unthinkable given what you witnessed with your own eyes. Your words in the days after the attack **moved** the world.

Your reminder that the victims needed to be remembered both as Muslims and as New Zealanders, showed that grief revealed you to be a man of great wisdom.

You could not have been more right when you declared that this country is [unbreakable](#).

On the map New Zealand may look like an isolated land. But in the weeks that followed the 15th of March, the moral compass of the world was [centred](#) here in Christchurch.

You showed the way we must respond to hate – with love.

You showed that when a particular community is [targeted](#) with prejudice and violence, simple acts – like wearing a headscarf or broadcasting the call to prayer – can reassure those who have reason to be afraid.

You showed that an attack [designed to](#) divide a society against Muslims only brought us all closer to our Muslim friends.

The Muslim community showed the world the true face of Islam as a religion of peace and understanding.

I was very moved by the stories of the [great distances](#) that your friends and families travelled to support you in your time of need, even when your previous connections had not always been frequent. They travelled here to support you because you were family and that is what families do. They drop everything when it [is needed](#).

People of all faiths and backgrounds can learn a great deal from how the Muslim families affected by the 15th of March attacks rallied around their loved ones.

The example provided by New Zealand will prove to be of [enduring](#) value to all nations. What happened here was fuelled by a warped ideology that knows no boundaries. The world has rightly united to fight the extremism that has made sorrowful brethren out of cities like New

York, Paris, London, and Manchester and that has taken so many lives in Sri Lanka in recent days.

And so too we must unite to fight the [violent brand](#) of extremism that has led to fatal shootings in a church in Charleston, South Carolina and a synagogue in Pittsburgh, Pennsylvania; a van attack on the streets of Finsbury Park in London; the murder of an MP in West Yorkshire; and now so many deaths in two mosques here in Christchurch.

Extremism in all its forms must [be defeated](#).

The message from Christchurch and the message from Al Noor and Linwood mosques could not be more clear - the global ideology of hate will fail to divide us.

And just as New Zealand has taken [swift](#) action to ban physical tools of violence, we must unite to reform the social technology that allowed hateful propaganda to inspire the murder of innocents.

To the people of New Zealand and the people of Christchurch – to our Muslim community and all those who have rallied to your side – I stand with you in [gratitude](#) for what you have taught the world these past weeks.

I stand with you in optimism about the future of this great city.

I stand with you in grief for those we [have lost](#), and with support for those who survived.

And I stand with you in firm belief that the forces of love will always prevail over the forces of [hate](#).

# Facebook CEO Mark Zuckerberg Hearing on Data Protection

[Facebook CEO Mark Zuckerberg](#) testified before the House Energy and Commerce Committee regarding the company's use and protection of user data following the Cambridge Analytica breach. During the nearly five hour hearing, Mr. Zuckerberg acknowledged that government regulations are "inevitable" but stressed that a balance of the right regulations are best. On the previous day, he appeared before a joint hearing on the Senate side.

MARK ZUCKERBERG: Chairman Grassley, Chairman Thune, Ranking Member Feinstein, Ranking Member Nelson and members of the committee, we face a number of important issues around privacy, safety and democracy. And you will rightfully have some hard questions for me to answer. Before I talk about the steps we're taking to address them, I want to talk about how we got here.

Facebook is an idealistic and optimistic company. For most of our existence, we focused on all of the good that connecting people can do. And, as Facebook has grown, people everywhere have gotten a powerful new tool for staying connected to the people they love, for making their voices heard and for building communities and businesses.

Just recently, we've seen the "Me Too" movement and the March for our Lives organized, at least in part, on Facebook. After Hurricane Harvey, people came together to raise more than \$20 million for relief. And more than 70 million businesses — small business use Facebook to create jobs and grow.

But it's clear now that we didn't do enough to prevent these tools from being used for harm, as well. And that goes for fake news, for foreign interference in elections, and hate speech, as well as developers and data privacy.

ZUCKERBERG: We didn't take a broad enough view of our responsibility, and that was a big mistake. And it was my mistake. And I'm sorry. I started Facebook, I run it, and I'm responsible for what happens here.

So, now, we have to go through our — all of our relationship with people and make sure that we're taking a broad enough view of our responsibility.

It's not enough to just connect people. We have to make sure that those connections are positive. It's not enough to just give people a voice. We need to make sure that people aren't using it to harm other people or to spread misinformation. And it's not enough to just give people control over their information. We need to make sure that the developers they share it with protect their information, too.

Across the board, we have a responsibility to not just build tools, but to make sure that they're used for good. It will take some time to work through all the changes we need to make across the

company, but I'm committed to getting this right. This includes the basic responsibility of protecting people's information, which we failed to do with Cambridge Analytica.

So here are a few things that we are doing to address this and to prevent it from happening again.

First, we're getting to the bottom of exactly what Cambridge Analytica did, and telling everyone affected. What we know now is that Cambridge Analytica improperly accessed some information about millions of Facebook members by buying it from an app developer.

That information — this was information that people generally share publicly on their Facebook pages, like names and their profile picture and the pages they follow.

When we first contacted Cambridge Analytica, they told us that they had deleted the data. About a month ago, we heard new reports that suggested that wasn't true. And, now, we're working with governments in the U.S., the U.K. and around the world to do a full audit of what they've done and to make sure they get rid of any data they may still have.

Second, to make sure no other app developers out there are misusing data, we're now investigating every single app that had access to a large amount of information in the past. And, if we find that someone improperly used data, we're going to ban them from Facebook and tell everyone affected.

Third, to prevent this from ever happening again, going forward, we're making sure that developers can't access as much information now. The good news here is that we already made big changes to our platform in 2014 that would have prevented this specific situation with Cambridge Analytica from occurring again today.

But there's more to do, and you can find more details on the steps we're taking in my written statement.

My top priority has always been our social mission of connecting people, building community and bringing the world closer together. Advertisers and developers will never take priority over that, as long as I am running Facebook.

I started Facebook when I was in college. We've come a long way since then. We now serve more than 2 billion people around the world. And, every day, people use our services to stay connected with the people that matter to them most.

I believe deeply in what we are doing. And I know that, when we address these challenges we'll look back and view helping people connect and giving more people a voice as a positive force in the world.

I realize the issues we're talking about today aren't just issues for Facebook and our community. They're issues and challenges for all of us as Americans.

Thank you for having me here today, and I'm ready to take your questions.
