The academic system provides for various curricula, so as to enable students to attend and complete the study programme according to the knowledge and skills acquired in the previous study programmes.

To be admitted to the study programme, a B-2 English level is required.

Personal skills

The Educational regulations of the study programme also govern the procedures for the assessment of the students' personal skills, including the knowledge of a EU foreign language.

The LM-65 master's degree programme in Fashion Studies carries out the assessment of requisites (including English language skills) through the pre-selection procedures website from November until the end of October of the academic year of enrolment.

Assessment takes into account the possession of an English language certificate issued by acknowledged institutions (IELTS, TOEFL, etc.), the consistency of the exams of the bachelor's degree transcript of records or of the diploma supplement and the letters of recommendations, if any.

In some cases, candidates are required to undergo an interview (if they are Italian students or already live in Italy) or a telephone/Skype interview to have their skills and motivations assessed.

In case students have not submitted any B-2 level English language certification, they must undergo a language skills assessment upon their arrival in Italy.
