#### Contact details of the Data Protection Officer

rpd@uniroma1.it; PEC: rpd@cert.uniroma1.it

#### Data processing purposes

The processing of the required personal data is performed to determine the score, corresponding to each univocal identification barcode, achieved by candidates in the admission tests for degree programmes.

Admission tests are ruled by Article 4, subsection 1, of law 2 August 1999, No. 264 containing regulations on degree programmes access, that ratifies, in Article 2, the motivations for which Universities may autonomously decide to limit the number of admissions to degree programmes.

#### Methods of processing and data subjects

The personal data processing is run, following a computerized procedure, by units of the staff designated by the InfoSapienza ICT Area of "Sapienza University".

The subjects appointed receive, in separate boxes and from members in charge of the supervision, the candidates' test papers marked with a univocal identification code and the candidate data sheets so that they may match, after the automatic correction of the answers, the results with the candidates and, consequently, prepare the ranking with the candidates data.

#### Nature of personal data conferral and consequences of a possible refusal

Giving the personal data, indicated in the candidate data sheet that is kept by the University at the end of each admission test, is obligatory in order to match the identification code/student/score achieved that allows the ranking preparation. Failure to obtain these data results in the invalidation of the test.

#### Data processing controller

The data processing controller is the Rector of "Sapienza University of Rome", in his/her role of legal representative.

#### Data processors

c) certification to the effect that the operations as per letters a) and b) have been notified, as also related to their contents, to the entities to whom or which the data were communicated or disseminated, unless this requirement proves impossible or involves a manifestly disproportionate effort compared with the right that is to be protected.

b) to the processing of personal data concerning them, where it is carried out for the purpose of sending advertising materials or direct selling or else for the performance of market or commercial communication surveys.
