

**2021/2022 Second Semester**

**Here you have the timetable of the offline classes**

LM24 SECOND YEAR	MON	TUE	WED	THU	FRI
9:30 - 10:30		Seismic design	Hydraulic infrastructures	Sustainable techniques for road construction	Advanced processes and technologies for water sustainability 10:00
10:30 - 11:30		Seismic design	Hydraulic infrastructures	Sustainable techniques for road construction	Advanced processes and technologies for water sustainability
11:30 - 12:30		Seismic design	Hydraulic infrastructures	Sustainable techniques for road construction	Advanced processes and technologies for water sustainability 13:00
12:30 - 13:30	Bioclimatic design	Advanced design for sustainable building components	Hydraulic infrastructures	Sustainable materials technologies	Environmental hydraulics 13:00
13:30 - 14:30					
14:30 - 15:30	Bioclimatic design	Advanced design for sustainable building components	Groundwater management	Sustainable materials technologies	Environmental hydraulics
15:30 - 16:30	Bioclimatic design	Advanced design for sustainable building components	Groundwater management	Sustainable materials technologies	Environmental hydraulics
16:30 - 17:30	Bioclimatic design		Groundwater management		
17:30 - 18:30			Groundwater management		

**2021/2022 Second Semester**

**Here you have the timetable of the recorded lessons**

LM24 SECOND YEAR	MON	TUE	WED	THU	FRI
8:30 - 9:30	Sustainable materials technologies	Seismic design	Advanced design for sustainable building components	Seismic design	
9:30 - 10:30	Sustainable materials technologies				
10:30 - 11:30	Environmental hydraulics				
11:30 - 12:30	Environmental hydraulics				
12:30 - 13:30					
13:30 - 14:30			Advanced processes and technologies for water sustainability		
14:30 - 15:30			Advanced processes and technologies for water sustainability		
15:30 - 16:30					
16:30 - 17:30		Groundwater management		Hydraulic infrastructures	Bioclimatic design
17:30 - 18:30	Sustainable techniques for road construction	Groundwater management		Hydraulic infrastructures	Bioclimatic design
18:30 - 19:30	Sustainable techniques for road construction	Groundwater management	Advanced design for sustainable building components	Hydraulic infrastructures	Bioclimatic design
