

Academic year 2025-2026

Admission methods for the Master's Degree with entry requirements and academic knowledge assessment in:

Engineering in Computer Science

Faculty of Information Engineering, Computer Science and Statistics

Class: LM-32; code to be entered on Infostud: **33515**

Degree programme delivered in English

1. Stages of the procedure

For admission to the master's degree, it is required to:

- a. **Pay** the € 10,00 fee in compliance with the methods and deadlines indicated in section 3.
- b. **Wait for the outcome** of the entry requirements assessment. **If the requirements are not met**, it is possible to acquire the missing credits by passing single exams. The methods and costs are set out in "Single Courses" of the Student Regulations [Go to the Student Regulations](#)
- c. **Carry out the academic knowledge assessment** in the modalities indicated in section 4.
- d. **Proceed to enrolment** by paying the master's degree enrolment tuition fees in accordance with the procedures and deadlines indicated in section 5. Enrolment can only take place when the Student Affairs Office sends an email notification of the successful outcome of entry requirements and academic knowledge assessment.

For candidates from other Italian universities

After having made the payment, candidates coming from other Italian universities must send via email to the educational affairs office (segreteria didattica@diag.uniroma1.it) within the same dates provided for the application for the entry requirements assessment, a self-certification of the qualification obtained indicating the degree class, the exams taken and the scientific- disciplinary sectors corresponding to the subjects and a copy of the payment of the € 10,00 fee. Failure to submit the declaration of previous educational background or the negative result of the entry requirements assessment will result in the impossibility of enrolling in that specific degree programme.

For candidates who have not graduated yet

If the programme regulations provide for it, candidates who have not yet graduated (from Sapienza University of Rome or other universities) may also apply for entry requirements assessment, without prejudice to the obligation to graduate by January 24, 2026 (for those who have not yet graduated from Sapienza University of Rome) and by December 20, 2025 (for those who have not yet graduated from other Italian and international universities).

For candidates from foreign countries and/or with an educational qualification obtained in a non-Italian education system

Procedures for candidates coming from foreign countries are indicated in section 6.

2. Entry requirements

To be admitted to the Master's Degree in Engineering in Computer Science and Artificial Intelligence, it is necessary to hold a three-year degree or university diploma or another qualification obtained abroad and deemed suitable. Specifically, those with a foundational background in science, engineering and computer science/computer engineering may apply for admission. This is equivalent to having acquired during the three-year degree programme at least 60 ECTS in the following subject areas, as detailed in the Programme Regulations:

- at least 24 ECTS in the following scientific-disciplinary sectors in the areas of foundation subjects (mathematics, computer science, statistics, physics),

MAT/01 – Mathematical logic
MAT/02 - Algebra
MAT/03 - Geometry
MAT/05 - Mathematical analysis
MAT/06 - Probability and mathematical statistics
MAT/08 - Numerical analysis
MAT/09 - Operational research
SECS-S/01 - Statistics
SECS-S/02 - Statistics for experimental and technological research
ING-INF/05 - Information processing systems
INF/01 – Computer Science
CHIM/07 - Chemical fundamentals of technology
FIS/01 - Experimental physics

of which at least 9 in the sectors of mathematics MAT/01, MAT/02, MAT/03, MAT/05, MAT/06, MAT/08, MAT/09

- at least 36 ECTS in the following scientific disciplines in the fields of information engineering, industrial engineering or computer science and technology

ING-INF/01 - Electronics
ING-INF/02 - Electromagnetic fields
ING-INF/03 - Telecommunications
ING-INF/04 - Automatics
ING-INF/05 - Information processing systems
ING-INF/06 - Electronic and computer bioengineering
ING-INF/07 - Electrical and electronic measurements
ING-IND/31 – Electrotechnics
ING-IND/35 – Management Engineering
INF/01 – Computer Science
BIO/10 - Biochemistry
BIO/11 – Molecular Biology
M-FIL/02 - Logic and philosophy of science

Of which at least 18 in the fields of ING-INF/05, INF/01 relating to Information Processing Systems or Computer Science.

Competences in the English language of at least level B2 of the CEFR are also required.

Applicants from non-EU countries resident abroad and applying for the academic year 2025/26 study visas are also required to hold the pre-acceptance letter ([Online Preselection Application – Sapienza University of Rome \(uniroma1.it\)](https://www.uniroma1.it)).

Admission to the Master's Degree in Engineering in Computer Science and Artificial Intelligence also includes an assessment of the adequacy of the student's academic knowledge, the details of which will be set out in the didactic regulations, available on the degree programme's website.

3. Entry requirements assessment

The assessment of entry requirements is requested by paying a fee of €10,00 from July 2, 2025 to one of the following dates of your choice:

- September 16, 2025 (only date available for non-EU candidates who request a student visa)
- October 16, 2025
- November 18, 2025
- December 16, 2025
- January 15, 2026 (date reserved for those who have already graduated or are about to graduate from Sapienza University of Rome).

Payment is generated on the Infostud system.

Payment is made online via PagoPA (direct payment).

The code to be entered in the system is **33515**.

[Read the instructions](#)

The **outcome** of the entry requirements assessment will be communicated to the institutional mailbox (if activated) or to the personal email address declared on Infostud.

4. Academic knowledge assessment

The academic knowledge is assessed if the entry requirements are met.

A committee specifically appointed by the Area Educational Board will assess academic knowledge based on the following elements

- average grade of the exams taken within the bachelor's degree
- relevance of the bachelor's degree curriculum
- other extracurricular activities, including work and other training activities;
- possible interview.

On the basis of the curricular requirements met and the assessment of academic knowledge, the committee may identify paths within the Master's degree that the student's study plan must comply with.

5. Enrolment

Enrolment is obtained through payment of the programme enrolment tuition fees, after successful completion of the assessment of entry requirements and academic knowledge.

Payment is generated on the Infostud system.

Payment is made online via PagoPA (direct payment).

The **code** to be entered in the system is **33515**.

[Read the instructions](#)

The terms for paying the first instalment are indicated in the Student Regulations, Part II "*Contribuzione studentesca*", under the section "*Payment deadlines*"

6. For candidates with an educational qualification obtained within a non-Italian education system

Procedures differ according to nationality and country of residence.

For those with citizenship in non-EU countries, residing abroad and applying for a study visa, and for those from China and participating in the Marco Polo project

In these cases, it is necessary to have the mandatory pre-acceptance letter.

The procedures to be followed are indicated in section 7 of the International Student Office page

[Read section 7](#)

For those with Italian citizenship, for those with citizenship in EU countries (regardless of country of residence) and for those with citizenship in non-EU countries with a residence permit in Italy

The procedures referring to these cases are indicated in section 8 of the International Student Office page

[Read section 8](#)

Enrolment procedures for those with an educational qualification from a non-Italian education system

Following the successful outcome of the entry requirements assessment, or upon receipt of the pre-acceptance letter, those in possession of an educational qualification obtained in a non-Italian education system must complete the enrolment procedure for the two-year Master's degree programme as indicated in section 4 of the International Student Office page
